

Questions received for RFP for Drilling Training for KenGen

***Is the drilling training program open for citizenship of other countries?**

Please note that it is open for citizens from any country to bid on this RFP provided that they meet the criteria outlined in the Qualifications section. The training itself is only open to staff from KenGen, as this procurement is in partnership with and will be funded by USAID/Kenya.

***Should we bid this based on prep-time plus the time in country putting on the workshops as well as travel?**

The financial portion of your proposal should include costs for all of your time, including development of the workshops and actual teaching time.

***Do you see these workshops running, one right after the other? One trip, two workshops and how long would you want these workshops to be?**

The desired length of each workshop is specified in the RFP document. The two courses will most likely have different participants, so they do not have to be taught back to back.

***I see that trainings must be completed by December 31, 2018. When would you like these workshops to take place?**

We do not have a set idea as to when the workshops should take place, just that they need to be completed prior to the end of 2018, please propose training dates based on the availability of trainers.
