## 1000 ABSTRACTS RECEIVED!

We are proud to announce that over 1000 abstracts were received for presentation at WGC 2018! Applications came from 50+ countries. The reviewing process is now in progress, with committee meetings taking place all over the world. Authors will be notified on **November 27, 2017 EST** if their abstract submission has been successful. Right, the Marketing & Communications Committee reviewing abstracts in Toronto earlier this month.

## MEET THE WGC 2018 TEAM IN LISBON NEXT MONTH

IGU President David Carroll will be speaking at the [CWC 18th Annual World LNG Summit & Awards Evening](#) in Lisbon in November about the next wave of LNG supply projects.

The event is also a chance to meet the WGC 2018 team and find out more about what you can expect in DC next June - don't forget to pick up a famous WGC baseball too!

Mr Carroll's panel session at the World LNG Summit will look at new greenfield projects in the US, Mozambique and Russia, as well expansion opportunities of recently installed liquefaction. [Find out more.](#)

## GTI ARTICLE: COMPLETION TECHNOLOGY & TECHNIQUES

### Reducing the Number of Wells Drilled by Increasing Recovery Rates = Smaller Environmental Footprint

More efficient completion technology provides for more environmentally friendly production of our energy resources. Developing a better understanding of stimulated reservoirs and new completion techniques will help industry more efficiently recover these resources.

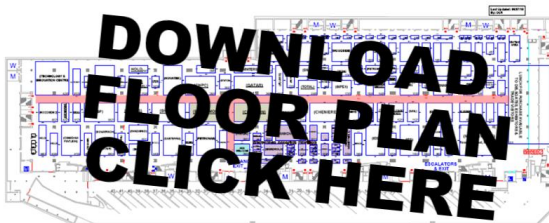

This premise lies at the core of GTI's Hydraulic Fracturing Test Site (HFTS) program - [read the full article](#).
