

Overcoming Barriers to Deploying Direct Air Capture

*A virtual workshop organized and sponsored by EPRI & USEA
under a cooperative agreement with
U.S. DOE Office of Fossil Energy and Carbon Management*

Thursday, August 11th
9am – 2pm PDT (12pm – 5pm EDT)

Free and open to attend:

[Register](#)

Discussion Themes:

Energy – Powering DAC at climate-relevant scales

Technology – Advantages and barriers to different capture approaches

Project Execution – Towards megaton-scale projects

Select Speakers:

Jen Wilcox – U.S. Department of Energy

Klaus Lackner – Arizona State University

Carlos Härtel – Climeworks

Geoff Holmes – Carbon Engineering

Scott Litzelman – Stripe

Mark Coalmer – Oxy Low-Carbon Ventures

Jesse Jenkins – Princeton University

Cheryl Laskowski – CA Air Resources Board

Mike Monea – Monea CCS
