# Emphasizing Diversity, Equity & Inclusion

Ensuring the solar workforce and customer base reflect the diversity of America is a core, cross-cutting priority.

The image shows a woman with blonde hair speaking at a podium. Behind her is a large screen displaying the SEIA logo and the text "#DiversityChallenge". Below the screen, a tweet is visible: "Tweet: Today @SEIA is leading a #DiversityChallenge and we are honored to be a part of it. Join us in the fight for a more diverse and inclusive #energy industry: <http://bit.ly/2lzu0PH>". To the right of the woman, a blue banner reads "Paid Leave – An Essential Employee Recruitment & Retention Benefit" and "May 21, 2019 11am PT / 2pm ET". Below the banner is a laptop displaying the SEIA Webinars logo.

The image displays two reports. The left report is titled "U.S. SOLAR INDUSTRY DIVERSITY STUDY 2019" and includes the subtitle "New Resources on Diversity and Inclusion in the Solar Workforce". The right report is titled "Diversity Best Practices Guide for the Solar Industry" and includes the subtitle "for a bright future". Both reports feature the SEIA logo and The Solar Foundation logo. The right report also includes a date stamp "May 2019".
