SpaceCom – the Space Commerce Conference and Exposition - is the nation’s premier showcase of space technologies and the new business opportunities they create for terrestrial industries. With more than 250 NASA executives and 100+ companies present, SpaceCom brings like-minded executives together to learn how to use space technology and space-based assets to gain a competitive advantage.

Featuring [6 keynote presentations](#) by renowned experts Grady Booch, Carissa Christensen, Christopher Codella, Daniel Craft, Robert M. Lightfoot, Rupert Pearce and Walter Scott, and SpaceCom is set to fuel business innovation well into the future. Learn more about how space technologies relate to the energy industry [here](#).
